The SMP course offers great knowledge on procurement and provides techniques that will assist in managing your business strategically. The communication between all sides was awesome. The trainer was great and open for all kinds of questions. Showing real great examples from his own experience was fantastic.

I have had a pleasure of having LEORON conduct some training programs, many of the techniques and strategies discussed during the course were applied, with a number of success stories resulting in positive organization change.

LEORON offers everyone the most suitable solution in terms of learning and development from the certificate courses and workshops to the most tailored programs.

Another important factor is LEORON's instructors who play a significant role in the learning process by sharing their own experience. I highly recommend LEORON for any organization that is keen to make a different in people development.

CBOP is an extremely useful and professional programme, which affords a great learning experience as well as a huge oppurtunity to exchange ideas from professionals across industries. The value that the Cerification offers is by itself professionally satisfying as it not only enhances one's image in their current organisation but it also provides greater visibility with prospective employers. Last but not the least, LEORON, is a professional organisation and was very efficient in its conduct of the program, and I have no hesiation in recommending them for a hassle-free, splendid experience, one will remember for a long long time!
