Our experts have been receiving daily industry insights from the EMEA region for well over a decade.

Along with leading global associations and academies, we've used this information to adapt our teachings to regional needs. You'll benefit from an exceptional **Classroom Learning** experience that will boost your competencies according to the most required standards of today.

In fact, when opting for LEORON, you're choosing **60+ attractive destinations**, hundreds of premium venues and learning from prominent global experts in **15+ Knowledge Areas.**

Furthermore, with online learning expanding throughout Academia and beyond, we have implemented our **Virtual Instructor-Led Training** to stretch your learning experience past the boundaries of location – presentations are interactive, conducted live at a scheduled time throughout the course, mimicking our public sessions both in content and quality.

Have a look at the future you; have a look at LEORON.

Our training approach includes:

- Fluid lectures by authoritative global mentors
- Contemporary AV and printed learning content
- Simulated exams for each topic and exam solutions
- Learning exercises and best practices from the field

Delivery Methods:

Face to Face
Instructor-Led Training
(F2F-ILT)

Virtual
Instructor-Led Training
(V-ILT)

Advantages of Public Courses

Comprehensive
Wide range of dates and locations to accommodate your preferred schedule.

Networking
Meet with leading names from across the industry.

Attractive Destinations
Choose from one of our 60 global destinations, such as: Dubai, Abu Dhabi, London, Paris, Jonkoping, Riyadh, Almaty, Barcelona...

Certified
All our courses are certified by leading world academies, such as ASQ, LSBF, PMI, IIA, HRCI, APICS, ILM, IACCM and many more.

Established by Experts
World expert trainers that engage you in participative and cooperative training.

Virtual Instructor-Led Training Option
Stretch your learning experience past the boundaries of location conducted live at a scheduled time throughout the course.

In-House Training Solutions

See Why Teams of All Sizes Enjoy Our Training Solutions.

THE NEXT ONE CAN BE YOURS.

Time, Venue, and Content **Entirely Up To You**

Our in-house programs are meant for clients who choose to train their people, in their location of choice, at their preferred schedule.

We'll fly our trainers and materials to your premises, securing you a custom-made, cost-efficient learning experience. We'll even break down an in-house and let you choose further:

Off-The-Shelf **Customized** **Bespoke**

Benefits of In-House Training

Lower Investment
In-house group training is a cost-effective solution and helps optimize your training budget.

Flexibility
Training sessions are set according to your time/location preferences.

Adaptable
Trainer is picked by the client and trainees to fit the exact proficiency level of the group.

Custom-Made
Training is tailored to your employee's specific needs.

Time-Effective
Onsite or offsite individual coaching sessions and monitoring of change in behavior.

Significant
Well-adjusted to latest global industry standards and business requirements.

Leadership Coaching

Coaching is the most effective development tool for senior executives.

One of the things we do very well with our coaching programs help executives understand the need for change and taking responsibility for their personal development and transformation.

If you are looking to improve performance of your leadership team and need assistance from our international faculty of coaches, please give us a call and we will work closely with you to design your coaching program.

STEPS We Use in Helping Succesful Leaders Get Even More Succesful

1

Leadership Performance Forecasting Psychometric Assessment

Measures Leader's Dominant Competitive Strategy, Ingrained Leadership Culture, Personal Integrity, Deep Thinking, Clear Thinking, Personality and Predictive LeaderVIEWS.

2

Review of the Assessment Results and Determining Growth Areas

Leaders draft development objectives based on Performance forecasts, assisted by their LEORON coach.

3

Coaching Sessions with Peer Involvement

On-site or off-site individual coaching sessions and monitoring of change in behavior.

5. Job Analysis and JD Design
6. Competency Development, Modeling and Assessment
7. Training Needs Analysis
8. Learning Academy and Corporate University
9. Employee Engagement Measurement

LEORON Train-To-Hire

Why Train-to-Hire?

LEORON Train-to-Hire (TTH) is a comprehensive solution designed to address workforce needs in Saudi Arabia by integrating tailored training and recruitment strategies.

This model identifies potential talent, equips them with necessary skills through focused training modules, and matches them to suitable roles within various industries. It emphasizes a seamless transition from learning to employment, boosting workplace readiness and ensuring that organizations receive candidates who can contribute immediately and effectively.

Program Process

1

Candidate Screening

Assessing your candidates' skills and conduct a data-based training.

2

Professional Trainings

Building the required skill-set to work and excel in the chosen profession.

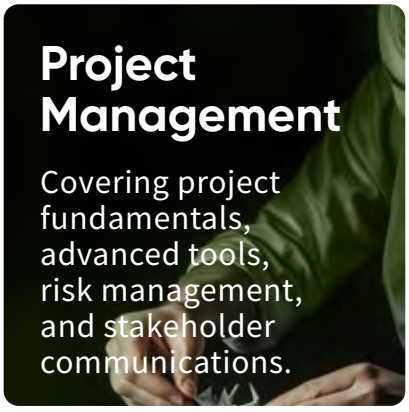

3

Learning Report

A final report summarizing the level of compliance with the program's objectives, the achievements of the participants and feedbacks.

Program Structure and Offerings

Four-Week and Six-Week Programs:
Each program is tailored to meet industry-specific needs.

L3RN Channel

The **Very First TV Show** to Cover the **Learning Industry**

L3RN Channel is a LEORON Institute-backed TV project focusing exclusively on the learning industry.

More than 60 guests have been featured on the L3RN Channel to date, including executives and high-profile managers from companies such as Aramco, NAJM Company for Insurance Services, TDRA, Kahoot! and more.

The show seizes current events from the EdTech and Training spectrum across the Middle East, Europe, and the US – shedding light on some of the most common learning and development challenges of today's enterprises and their training needs.

Featured experts have commonly addressed topics related to improvements, ideas, and strategy within the industry – making L3RN Channel the number one information hub for field professionals.

The L3RN Channel has produced 56 episodes and gained the attention of more than 40,000 viewers. Head to our YouTube page to watch your favourite learning and development topic discussed by leading experts:

https://www.youtube.com/@LEORONInstitute/videos

> LEORON conducts trainings with the best in class content and quality. I am very happy with their professional approach and very great full for their contribution in my professional development.

Yadivinder Singh,
Cofely Besix Facility Management

> Really it was great chance to me to interact with deep & wide experience professionals in maintenance and reliability and provide me with different industries backgrounds that will improve & optimize forming our maintenance organization to be aligned with global benchmark.

Rahman Mahdi Hamoud,
Gulf Pharmaceutical Industry (JULPHAR)

CAT II Vibration Analysis Category II

Exam Preparation Course

Machinery Diagnostics Institute

COURSE OBJECTIVES

We teach you to test machines correctly, how to diagnose faults accurately, perform additional diagnostic tests for verification, how to set vibration alarm limits, and how to correct certain types of faults.

You will learn what your analyzer settings mean so that you can take the best measurements. And you will learn why the vibration signatures change the way they do and how to use time waveform analysis and phase analysis to verify the fault condition.

You will learn how to analyze vibration spectra, time waveforms, envelope (demodulation), and phase measurements

You will learn how to diagnose: unbalance, eccentricity, misalignment, bent shaft, cocked bearing, looseness, rolling element bearings faults, journal bearing faults, gearbox faults, resonance, and other conditions

You will learn how to balance and align a machine, and correct a resonance condition

Date	Location	Lg.	Days

Nov 29 – Dec 3	Khobar, KSA	EN	5 Days

IR II Infrared Thermography - CAT II

Exam Preparation Course

Infraspection Institute

COURSE OBJECTIVES

Examine infrared science fundamentals to deepen understanding of thermal imaging.

Interpret advanced infrared theory to improve diagnostic accuracy.

Identify sources of temperature measurement errors and apply corrections.

Construct quantitative reports to communicate infrared findings effectively.

Establish operational limits for infrared equipment based on performance data.

Date	Location	Lg.	Days
July 5-9	Kuwait City, Kuwait	EN	5 Days
October 4-8	Khobar, KSA	EN	5 Days

MLA I Machinery Lubrication Analyst - Level I

Exam Preparation Course

Machinery Diagnostics Institute

Certification Exam by: ICML

COURSE OBJECTIVES

Explain lubrication fundamentals and their applications in machinery maintenance.

Organize lubrication handling, storage, and management systems efficiently.

Mitigate lubrication contamination through effective contamination control techniques.

Implement best practices in oil analysis for machinery health monitoring.

Assess lubrication reliability and its financial impacts on operations.

Date	Location	Lg.	Days
October 18-22	Kuwait City, Kuwait	EN	5 Days
November 15-19	Khobar, KSA	EN	5 Days

MPS Maintenance Planning and Scheduling Training - Enhancing Operational Excellence: Mastering Maintenance Planning and Scheduling for Optimal Asset Performance

L3ORON Institute

COURSE OBJECTIVES

Planning role as part of Operational Excellence Organization.

Maintenance work order work flow and main steps.

Planning work process and dependencies.

Plant Outage Management techniques.

Maintenance Performance Measurement tools.

Date	Location	Lg.	Days
June 28 – July 2	VILT	EN	5 Days
September 13-17	Khobar, KSA	EN	5 Days
November 1-5	Kuwait City, Kuwait	EN	5 Days

PAM Physical Asset Management

Exam Preparation Course

L3ORON Institute

NASBA Credits

COURSE OBJECTIVES

- Analyze the key components of physical asset management, including maintenance strategies, risk management practices, and financial planning, to develop effective asset management plans
- Apply the principles of lifecycle costing and value management to assess the long-term costs and benefits of asset management decisions, and develop strategies to optimize asset performance
- Evaluate the impact of technological advancements on physical asset management, and identify opportunities to leverage emerging technologies such as IoT, AI, and blockchain to improve asset performance and reduce operational costs
- Synthesize data from a variety of sources, including asset inventories, condition assessments, and performance metrics, to develop comprehensive asset management plans and monitor progress towards achieving performance targets
- Collaborate with key stakeholders, including maintenance personnel, financial analysts, and senior management, to communicate asset management plans and strategies, and gain support for implementation efforts

ECEE Electricity, Circuits and Electronics for Engineers

Massachusetts Institute of Technology

COURSE OBJECTIVES

- Analyze circuits using the node method, superposition, and the Thevenin method.
- Construct simple digital gates using MOSFET transistors.
- Identify how to use intuition to solve circuits.
- Identify the various safety features of Electrical equipment.
- Recognize the various aspects of maintaining and operating electrical equipment, such as the proper installation, operation, and maintenance of terminals and wires.

request this course as an in-house

MLT I Level I Machinery Lubrication Technician

Exam Preparation Course

Machinery Diagnostics Institute

Certification Exam by: ICML

COURSE OBJECTIVES

- Manage a route for machinery re-lubrication and/or inspection.
- Properly change and/or top the oil in mechanical equipment found in common industrial sites.
- Employ basic oil analysis techniques to identify and troubleshoot abnormal lubricant degradation conditions, and use simple techniques to adjust the lubricant specification accordingly.
- Properly maintain automatic lubrication systems (autogrease, mist systems, etc.).
- Use simple techniques to select lubricants with the proper base oil and additive system for machinery commonly found in industrial settings.

request this course as an in-house

MP&M Manufacturing Planning and Management

Massachusetts Institute of Technology

COURSE OBJECTIVES

- Analyze the physical principles underlying machining, injection molding, casting, thermoforming, sheet metal forming, 3D printing, and electronics assembly.
- Evaluate the design for manufacturing principles and the impact on rate, quality, cost, flexibility, and sustainability in the mass production of products.
- Synthesize a multi-step manufacturing process plan that balances rate, quality, cost, flexibility, and sustainability.
- Apply cost estimation techniques to make accurate predictions of cost and throughput in the manufacturing process.
- Evaluate the life-cycle considerations and trade-offs in the manufacturing process, including important constraints and sustainability factors.

MFC Masterclass in Financial Control - Certificate in Accounting and Financial Control

Exam Preparation Course

IABFM™ INTERNATIONAL ACADEMY OF BUSINESS AND FINANCIAL MANAGEMENT

NASBA **Credits**

COURSE OBJECTIVES

Take-away toolbox of the "how to do" techniques in effective cost control.

Getting the right level of working capital coupled with effective monitoring and controlling this critical component of a company's resources.

Application of advanced ratios to identify problems in an early stage and how to take effective action.

Mechanisms to link long-term corporate goals to short-term target-setting.

Getting the buy-in of staff: mastering the link between corporate culture and effective controls.

The course is supported by a series of case studies led by a course director with years of experience. His examples are thought provoking and elicit a significant amount of group discussion, so delegates learn the "how to". This is not an academic course.

STA Strategic Talent Acquisition Certification Program

Exam Preparation Course

Human Capital Institute

NASBA, ATD, HCI, HRCI,SHRM **Credits**

COURSE OBJECTIVES

This two-day course moves beyond the trans-actional elements of making the right hire and provides you with deep expertise in the five pillars of Talent Acquisition strategy: Align, Segment, Brand, Pipeline, and Assess & Select.

ALIGN: Define and implement Talent Acquisition strategies to meet business goals and support organizational culture.

SEGMENT: Determine organizational gaps in critical roles to more quickly impact the bottom line.

BRAND: Define an Employee Value Proposition that attracts highly qualified candidates.

PIPELINE: Develop a channel management strategy to fill gaps with the right people at the right time.

ASSESS & SELECT: Identify, develop, and measure candidate potential for success.

You'll participate in a strategic business simulation to practice assessing an organization's current situation, working with teams, and making decisions based on business challenges. You'll also create a customized action plan that supports on-the-job implementation, complete with tools based on proven methodologies.

CInP Certified Innovation Professional (CInP)®

Exam Preparation Course

COURSE OBJECTIVES

Explain the core concepts and fundamentals of business innovation, including its types, processes, and outputs. Participants will gain a solid foundation in innovation knowledge, exploring the various forms innovation can take and how they create value for organizations.

Apply creativity, ideation, and brainstorming techniques to generate innovative ideas and solutions. Learners will practice structured methods such as the GInI Breakthrough Innovation Method to turn creative thinking into actionable innovation outcomes.

Analyze and manage innovation projects across different phases—from front-end exploration and research to implementation and scaling. Participants will develop the ability to structure projects, use research for insights, and drive innovations through the front, mid, and back ends of the innovation cycle.

Demonstrate knowledge of the roles and responsibilities of innovation professionals and managers in leading teams, managing systems, and fostering engagement. Learners will understand how to lead and build innovation teams, manage innovation programs, and facilitate open innovation collaborations within and outside the business.

Integrate advanced tools such as Design Thinking, Human-Centric Design, storytelling, and idea selection methods into innovation practice. Participants will apply these methods to reframe challenges, communicate ideas effectively, and select the most promising innovations for implementation.

CIPS Level 2 CIPS Level 2 Certificate in Procurement and Supply Operations

Exam Preparation Course

COURSE OBJECTIVES

Specialize: CIPS Level 2 is the first of CIPS entry level qualifications and allows learners to specialize in a specific occupation, occupational area, or technical role.

Develop: The course prepares learners for work by developing sector-specific knowledge, technical and practical skills, and the ability to apply these skills in work-related environments.

Transfer: The CIPS Level 2 Certificate in Procurement and Supply Operations is designed to develop transferable workplace skills, such as good communication and the ability to work in a team.

Identify: Employers have identified these transferable skills as essential for gaining employment in the sector and for progression in the profession.

Apply: Learners will have the opportunity to apply their developed skills in work-related environments, preparing them for successful employment in their chosen field.

SQM Strategic Quality Management – Crafting Organizational Excellence

L3ORON Institute

COURSE OBJECTIVES

Participants will be better prepared to maximize the value of a quality management system to any organization

Organizational structures which prevent siloed functions will be examined. Aligning all departments to achieve strategic business objectives through fact based decision making is a characteristic of world-class companies

Understanding risk at the strategic level, as well as the operational level can prepare senior leaders for market, consumer, and technological changes without interrupting operations

The future generation of employees will bring more intellectual capital to organizations than manual labor. For this reason, it is important for current leaders to develop & promote a culture of developing future leaders and retaining employees

The importance of developing and sustaining an organizational culture which applied risk-based thinking within a quality management system to support continued success in an increasingly competitive market will be a primary result for leaders completing this program

CCOA Certified Cybersecurity Operations Analyst

Exam Preparation Course

ISACA Accredited Elite Partner

COURSE OBJECTIVES

Comprehend networking, endpoint, and application essentials that underpin modern cybersecurity environments.

Apply governance, risk management, and compliance principles to develop security programs aligned with business goals.

Analyze threat actors, attack vectors, and threat intelligence to detect and respond to adversarial behavior.

Execute incident detection and response techniques, including advanced log analysis, forensics, and containment strategies.

Design and implement security controls, identity access systems, and vulnerability management processes to secure organizational assets.

Date	Location	Lg.	Days

EH Training for Ethical Hacker

L3ORON Institute

COURSE OBJECTIVES

Understand and Apply Ethical Hacking Methodologies: Participants will learn the core concepts and methodologies of ethical hacking, enabling them to conduct a comprehensive security audit on an organization.

Identify, Analyze, and Mitigate Threats: Participants will gain the ability to identify different types of cybersecurity threats, analyze their potential impact, and implement effective strategies to mitigate these threats.

Utilize Various Hacking Tools and Techniques: Participants will gain hands-on experience with various tools and techniques used in ethical hacking, including system hacking, sniffing, social engineering, denial of service attacks, and others.

Conduct Vulnerability Assessment and Penetration Testing: Participants will learn how to use industry-standard tools for vulnerability scanning and penetration testing, equipping them to effectively identify security weaknesses in a network or system.

Prepare for the CEH Certification Exam: The course provides comprehensive preparation for the Certified Ethical Hacker (CEH) certification exam, enhancing participants' chances of successfully achieving the certification.

> CBOP is an extremely useful and professional programme, which affords a great learning experience as well as a huge oppurtunity to exchange ideas from professionals across industries. The value that the Cerification offers is by itself professionally satisfying as it not only enhances one's image in their current organisation but it also provides greater visibility with prospective employers. Last but not the least, LEORON, is a professional organisation and was very efficient in its conduct of the program, and I have no hesiation in recommending them for a hassle-free, splendid experience, one will remember for a long long time!

Farhan Hafesjee
SVP & COO, Union National Bank

> It was a pleasure to participate in this course. Mr. Hisham was helping me out during the course, answering all of my questions repeatedly, without being tired of answering them in a different way for a better understanding of the course. He shared useful tip about the exam as well, like how to answer the questions correctly, time management tips to I can answer all questions in the time given. I learned much more than I expected. Thank you LEORON Institute and Mr. Hisham, very much appreciate this course.
